Product Requirements Document (PRD)

Music Rights Marketplace — Simple Core Edition

1. OVERVIEW & OBJECTIVE

A centralized digital marketplace connecting **Music Labels and Independent Artists** directly with **Agencies, Brands, and Content Creators**. The platform simplifies music synchronization licensing by allowing rightsholders to list audio tracks with predefined permissions, enabling buyers to purchase clear, usage-based licenses in a single checkout while preventing platform copyright strikes.

2. CORE STAKEHOLDERS & ROLES

1. Music Label / Artist (The Seller)
Independent artists, composers, and regional labels.

- Uploads tracks (WAV/MP3) and sound metadata.
- Sets base pricing and permitted usage channels.
- Receives transparent sales metrics and direct payouts.

2. Creator / Influencer (Individual Buyer)
Vloggers, reel makers, and individual creators.

- Discovers music by mood, genre, and language.
- Buys affordable single-video organic licenses.
- Obtains instant PDF certificate & channel protection.

3. Commercial Brand (Direct Buyer)
Corporate marketing, D2C, and growth teams.

- Licenses tracks for brand organic and paid ads.
- Enters social accounts and ad IDs for whitelisting.
- Receives GST tax invoices and compliance documentation.

4. Advertising Agency (Bulk Buyer)
Creative agencies and influencer management firms.

- Maintains multi-client workspace for multiple brands.
- Licenses tracks across full campaigns and multiple videos.
- Consolidates invoices, reporting, and creator permissions.

5. Platform Admin (Operations & Legal Support)
Internal verification, finance, and rights management personnel.

- Reviews new seller tracks and verifies ownership documentation before listing.
- Manages disputes by issuing automated releases via YouTube and Meta API connections.
- Oversees revenue reconciliation, platform commissions, and seller disbursements.

3. PRODUCT MODULES & FUNCTIONAL SCOPE

Module 1: Seller Portal & Catalog Management

- **Track Ingestion:** Audio upload with metadata (Title, Artist, Genre, Mood, Language, BPM).
- **Usage Rights Definition:** Seller flags permitted uses (organic social, paid ads, cuts/edits).
- **Earnings & Payouts:** Transparent royalty ledger showing sales volume, splits, and bank withdrawals.

Module 2: Discovery & Watermarked Audio Player

- **Faceted Search:** Filter catalog by mood, genre, language (Hindi, Punjabi, Tamil, English, etc.), and media type.
- **Waveform Player:** Seamless streaming player with audio watermarking to prevent unauthorized recording.
- **Alternative Suggestions:** Recommends acoustically similar tracks if a selected song is out of budget.

Module 3: Purpose-Based Licensing Engine

License Tier	Target Buyer	Permitted Usage	Channel Scope
Creator / Personal	Influencer, vlogger	1 Video, organic only	YouTube, Instagram, Facebook organic posts
Brand Organic	Small businesses, D2C	Up to 3 Videos, organic	Official brand handles, no paid ad spend
Paid Ad Campaign	Brands, growth teams	Ad creatives, boosted posts	Meta Ads, Google Ads, OTT digital pre-roll
Commercial / Broadcast	Agencies, production houses	Multi-video, high reach	TV, OTT, Cinema, comprehensive digital ads

Module 4: Automated Documentation & Platform Whitelisting

- **PDF License Certificate:** Instant generation post-checkout with unique License ID, Licensee Name, Track Details, Permitted Channels, and cryptographic verification hash.
- **Public Verification Link:** Scannable QR code directing to `platform.com/verify/{license_id}`.
- **API Whitelisting:** Programmatic channel/account registration with YouTube Content ID and Meta Rights Manager to prevent automated strikes, muting, or ad blocks.

Module 5: Dispute Resolution

- **One-Click Reporting:** Buyers submit flagged video URLs directly from their dashboard.
- **Fast-Track SLA:** Platform Admins release automated claims within 24 to 48 hours via API or direct partner contacts.

4. END-TO-END OPERATIONAL WORKFLOW

1. **Track Listing:** Artist or Label uploads audio and sets rights $\rightarrow$ Admin verifies ownership $\rightarrow$ Track is published.
2. **Discovery & Selection:** Agency, Brand, or Creator filters tracks, previews watermarked audio, and selects their intended license tier.
3. **Instant Checkout:** Buyer enters their target social handle or ad account and completes payment via UPI, Card, or Netbanking.
4. **Automated Fulfillment:** Platform issues the official PDF License Certificate and GST invoice, updates YouTube/Meta whitelists, and credits the seller's royalty balance.
5. **Safe Publishing:** Buyer publishes their content with verified commercial sync rights and zero copyright strikes.
